

## **FORM OF INFORMATION AND ASSENT FOR X-RAY DIAGNOSTICS VERIFICATIONS**

Name and Surname \_\_\_\_\_

Date and place of birth \_\_\_\_\_

### **What is X-Ray Exam?**

Is a diagnostic examination that is taken advantage of the use of ionizing radiations.

### **What are ionizing radiations?**

They are those radiations that have enough energy to be able to ionizing atoms (or the molecules) With which they come to contact.

From always the man it is subject to the action of the natural ionizing radiations, these are usually defined: natural microwave background radiations due both to the terrestrial and to the cosmic radiation. On average, every one receive 2,4 mSv/a radiations, depends from where you live. In this Country, for example, people receive, on average 3,4 mSv/a radiations.

A long exposure to radiations can cause deteriorations to human tissue.

### **Is this exam painful?**

No, it isn't painful.

### **How is it done?**

It's like making a photography of a specific body zone. An authorized expert, on the base of a specific operative protocol, ask you to hold a position of your body just for the time to create the image.
